United Way of
Lebanon County

WHAT'S RAISED HERE STAYS HERE

At United Way of Lebanon County, we recognize that far too many children and families are struggling in our communities. To make a real impact, we work together to solve the root causes to these challenges, not just provide a single, short-term service. We believe that we can provide a hand-up to those in need now, while working towards long-term self-sufficiency for all residents of Lebanon County.

GIVE

Every dollar counts. When the people and businesses of Lebanon County come together, the impact on our local communities is multiplied. Your gift is combined with that of others to address the complex challenges that our neighbors face.

At United Way, our programs and investments connect families to community resources, remove barriers to learning for our most vulnerable children, and give all local children a strong start in life.

With your gift, local children and families are able to receive the support and education they need.

Give generously to support our neighbors today, while building a stronger future for us all in Lebanon County.

VOLUNTEER

Your gift of time can make as much of an impact as a gift of money. We are proud to be a community leader for volunteers looking to give back - with us or other organizations! Each year, we host our Day of Caring connecting hundreds of volunteers with local nonprofits. Throughout the year, we have a variety of projects and opportunities for local individuals and businesses to give back.

DID YOU KNOW?*

2.1.1

4,300 The number of Lebanon County residents who reached out to 211 to connect with nonemergency services.

94% The percentage of Lebanon County students attending a school with a Community Schools program that benefitted from school-wide services.

SOLVING COMPLEX CHALLENGES IN LEBANON COUNTY

United Way of Lebanon County provides pathways to education and financial stability that create better opportunities for everyone in our community. Our programs and investments are focused on the following key areas:

Connect families to community resources and programs to help them improve their economic self-dependence.

By providing a hand up to our neighbors in need, we empower them to be financially independent and create stronger families and ultimately a stronger community. We do this by:

- Connecting families to resources in our community through our 211 hotline, so they get the support they need - when they need it.
- Making community investments to support local nonprofits that provide programs and services that address root causes of instability for families.

Remove barriers to learning for our most vulnerable children because education is the path to self-dependence.

United Way of Lebanon County's programs and community investments help to improve academic performance, ensure equal access to educational opportunities, and increase family security. We do this by:

- Working collaboratively with local organizations to address school-readiness and improve literacy skills.
- Partnering with Lebanon County schools and stakeholders to ensure students and their families have access to the local resources and tools they need through our community schools initiative.

Give all of Lebanon County children a strong start in life.

When children are born, they all have the potential to succeed in school and in life. But at some point, their circumstances will affect the opportunities they have and, ultimately, their chances in life.

By convening strategic community partnerships and investing in the critical years of a child's life to create a strong foundation, build resiliency, and strengthen family stability, United Way of Lebanon County is helping children reach critical milestones that are strong predictors of their future trajectory.
